

Open Enrollment

iSolved is technology that provides an improved experience for employers and employees for the critical open enrollment process. A user-friendly interface offers a more engaging and intuitive benefits enrollment experience while users navigate step-by-step through the benefit enrollment process, driving up employee engagement and usage.

iSolved makes open enrollment simple and easy:

- ✓ **You can structure specific benefit enrollment welcome messages** while easily attaching important benefit documents for employees to review and acknowledge.
- ✓ **You can schedule email alerts** to make sure enrollment deadlines aren't missed.
- ✓ **When navigating menus in benefit enrollment**, it will save automatically.
- ✓ **You can also make the selection of a benefit dependent** on another benefit.
- ✓ **You can now choose to allow your employees to indicate** whether they are a tobacco user as part of their benefit enrollment.

Welcome messages and document attachments

The screenshot displays the iSolved Human Capital Management interface. At the top, the user's name is Mark T Able, with details for Employee ID (101), Status (Active), Pay Group (Weekly), Hire Date (5/1/2000), Hourly rate (####.##), Work Location (DETROIT, MI), Location (MI), Department (200), Shift (S), and Grant. The main navigation menu on the left includes sections like EMPLOYEE SELF SERVICE, Employee Welcome, Employee Messages, and Benefit Enrollment. The central content area is titled '2016 Benefits Enrollment' and includes a 'Welcome' message, a '2016 Benefits Enrollment' section with a 'Welcome to the 2016 Open Enrollment' message, and a 'Benefit enrollment period' from January 01, 2016, to December 31, 2016. There are also links for 'Summary Plan Description (DOCX)' and a 'Sign Acknowledgement' button.
